JOURNÉE

MODULAR STEM

by JOURNÉE®

Spec Sheet

DESCRIPTION

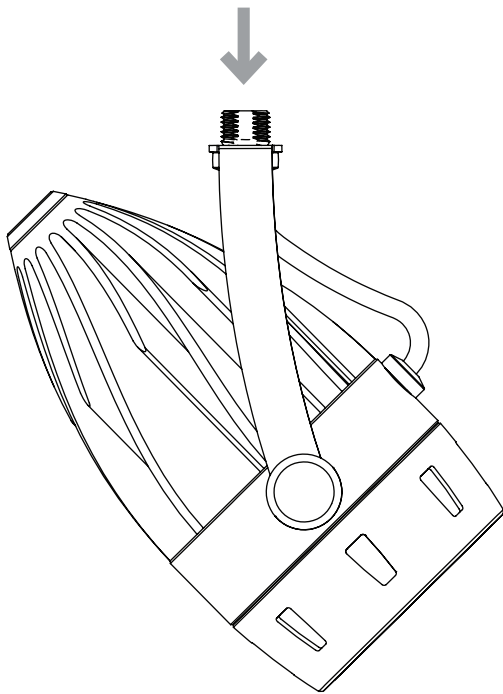

Available in 7 different lengths and interchangeable in the field, Journée's Modular Stem allows for the specification of the desired drop height from the Monorail or Monopoint canopy to the luminaire. Additionally, museums and showrooms can stock extra stems in various lengths in order to accommodate the required flexibility of revolving exhibits.

FEATURES

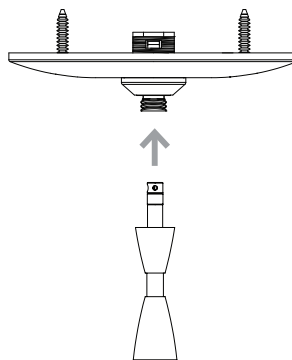

- Interchangeable in the field
- Available in 7 different lengths
- Compression-loaded electrical connection

FINISH

Brushed Aluminum

COMPATIBILITY

MONOPOINT CANOPY
Modular Stem threads directly into monopoint canopy

MONORAIL SYSTEM
Requires Monorail to Modular Stem Connector as shown above
